

## Materials of Construction

Filter Media: Polypropylene

## Construction Notes

1. Spun bonded from lot controlled, FDA compliant materials.
2. Contains no solvents, binders or anti-static agents.
3. Constructed from a strong, self supporting structure with high chemical compatibility.

## Technical Data

Micron Rating (μ)	1, 5, 20
Length (")	9 <sup>7</sup> / <sub>8</sub> , 20, 30, 40
Maximum Operating Temperature (°C)	60
Maximum Operating Pressure Differential (bar) at Temperature (°C)	2 at 21

## Dimensions

Filter Length (")	Length (nominal mm)	Outer Diameter (nominal mm)	Inner Diameter (nominal mm)
9 <sup>7</sup> / <sub>8</sub>	250	63	28
20	508	63	28
30	762	63	28
40	1016	63	28

## TruDepth Range

Also available from the SPECTRUM TruDepth family:

TruDepth Economic (ESP)  
TruDepth Standard (SSP)  
TruDepth Premier (PSP)

## Flow Rate vs. Pressure Drop

Pressure drop data obtained using water at 20°C per 9<sup>7</sup>/<sub>8</sub>" filter. Data represented using its micron rating in the chart below.
